

# Frontend Template – Basic Page Structure

- ❖ The **Global Layout** defines the common structure that appears on all pages of the application. It ensures consistency, usability, and easy navigation for users.

## 1. Header:

The **Header** is the topmost section of the website and is visible across all pages. It acts as the primary navigation and branding area.

### Global Layout:

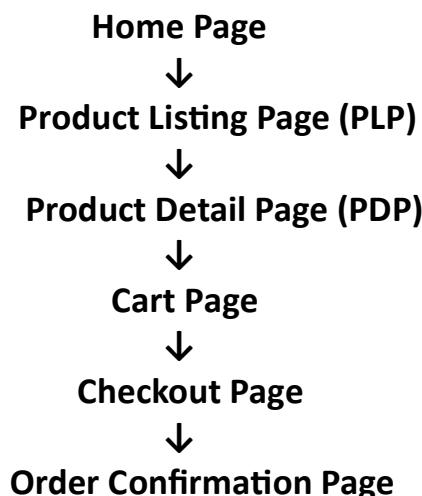

#### **Header↓**

- ⇒ Logo
- ⇒ Search
- ⇒ Category Menu
- ⇒ Login / Cart

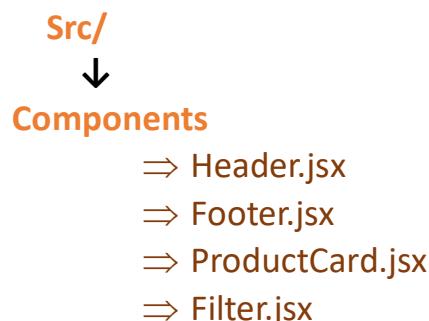

#### **Footer↓**

- ⇒ About
- ⇒ Policies
- ⇒ Contact

## 2. Core Pages (Build in THIS Order):

## React Frontend Folder Structure:

## Frontend Template – Basic Page Structure

- ❖ **BRS** → Business goals
- ❖ **SRS** → System behaviour
- ❖ **FRS** → Features per page
- ❖ **Workflow** → Actual implementation order
